

MWF

8:30 – 9:20 a.m.

Krannert G-4

Instructor: Gerald A. Harrison, PhD, JD; 690 KRAN; Purdue phone: 49-44216 **E-mail is preferred:** harrisog@purdue.edu
Home: gah104@comcast.net **Check for E-mail sent by the instructor or Tracy or Secretary on a regular basis.**

Office Visits: **By Appointment.** E-mail is a good way to contact the instructor if you have a question.

Staff Assistant: Tracy Buck in 688 Krannert to the right from the elevator. Phone: 49-44208; E-mail: tbuck08@purdue.edu

Course Text: **Individual Income Taxes, 2015** by Hoffman and Smith, South-Western, Cengage Learning. This book may be purchased in a paper or in a digital version from < **eCampus.com** > **web address:**
<http://www.ecampus.com/search-results.asp?au=Hoffman%2FSmith>

The text Study Guide is also recommended. Students may wish to share a text, if convenient, and Study Guide, but neither is needed in the class room. Ten homework assignments will be from the 2015 edition of Hoffman and Smith. A few additional readings may be assigned from **IRS publications: *Your Federal Income Tax*, #17, *The Farmer=s Tax Guide*, #225 and *Tax Guide for Small Businesses* #334.** IRS tax forms and publications are available at: www.irs.gov.

Course Description: The course provides an introduction to federal income tax law: the terms (jargon), concepts, and fundamental principles. Tax law, example calculations for individuals and businesses, tax law policy and planning are emphasized. At the completion of this course, students will be expected to understand fundamentals of federal income tax law, recognize exceptions to the tax law, and be able to use this information in the analysis of common situations for U. S citizens: individuals, married couples and small businesses.

Objectives:

1. To develop an understanding of the federal income tax law: for individuals and small businesses and for economic and financial decision making.
2. To gain an understanding of the management opportunities for the income tax law and how they can be applied by individuals, families, and small businesses.
3. To develop the ability to analyze facts for tax law alternatives and to communicate tax planning alternatives.
4. **See the attached list of selected topics and skills to be covered.**

Classes: **Preparation and attendance is mandatory!** Class time is limited for the number of topics to be covered. It is required that you read the text materials before each class. Class time is used to highlight key points, review more difficult concepts and materials, work problems, and to supplement and update reading assignments. Students should be prepared to discuss questions and work problems in class and to answer quiz questions on both assigned and material presented in class. **Questions are welcomed by preferably by E-mail and in class.**

Blackboard: Scores on assignments, quizzes and tests results are expected to be posted on Blackboard Learn and posted in a student-folder for individual students and provided in the class room with the return of papers.

Exams & Quizzes: **Numerous quizzes (in any class), two tests and a final.** Students will not be expected to memorize the standard deductions for filing status, personal and dependency exemptions or similar material specific to the tax year nor certain other information. **Examinations are closed book (no notes) with only materials provided by the instructor with the test and a calculator. No cell phone calculators and other electronic devices are allowed during a quiz or test.** There will be 5 minute quizzes during (at the beginning, middle or end) class. Quizzes missed will affect your attendance score. **Quizzes will be Power Points on a screen.**

Homework: **Homework problems are listed in this syllabus.** Assignments will be turned in at the beginning of class, on the specified due date in the syllabus. **Homework must be typed, properly labeled (homework #, name, seat assignment, start page #, problem numbers) be neatly organized and clearly presented.**

Showing your work (labeled calculations and explanations-similar to examples in the text) is critical. For homework or any take-home tests or assignments type (use of a word processor) is required. Unprofessional appearing papers will be penalized. For each question, repeat only essential data. You need not draft the question. E-mail attachments are acceptable and a “read receipt” will be acknowledged. Use 2015 tax rate

schedules, standard deductions, personal exemptions for tax year 2015 supplied by the instructor. Be sure to save computer file copies of your work.

Class Attendance and Participation: Students must attend and participate in class. Some of the homework offers bonus points. During class cell phones use or observing calls or texts are not allowed. If, because of a University-sponsored activity, you are going to be absent from class provide a letter from the faculty involved in advance for a possible excused absence. Assignments in another course or job interviews are not considered University-sponsored activities.

Class Policies:

1. Errors in grading **addition and/or subtraction or recording of grades must be corrected within 2 weeks of their posting on Blackboard.** The instructor reserves the right to re-grade the entire assignment, examination, etc. in the case of disagreement with respect to scoring. Generally, **scores are final once they are posted.**
2. **Assignments are handed in at the beginning of the designated class period on the table at the front of the classroom.**
3. **Exams must be taken when scheduled.** The only reason for allowing a makeup exam would be an emergency documented to the instructor's satisfaction. It is the student's responsibility to contact the instructor as soon as possible to reschedule this exam.
4. **E-mail will be used to communicate class information (e. g. corrections and hints on homework assignments). Students are expected to check their Purdue E-mail on a regular basis. In case your E-mail is out of service, have a classmate for a contact for class E-mail information.**
5. **Academic Integrity** – University policy on academic misconduct is clear – academic dishonesty in any form is strictly prohibited. As a student, you should be familiar with the guide to academic integrity provided by the [Dean of Students Office](#). **Student cheating** will be dealt with on an individual basis. If you are caught cheating, you may be dismissed from this class with a failing grade (F) and you will be reported to the Dean of Students Office for disciplinary action. **If a cell phone or similar device in use is during a quiz, test or final examination, you will be asked to leave the room and immediately eligible for a grade of F for that exercise.** If you are unsure whether an action constitutes academic dishonesty, seek clarification from the instructor. **E-mail the instructor for your concerns and questions.**
6. **Special Needs** - If you have a disability that may require academic adjustments you must notify the instructor. Please note that university policy requires all students with disabilities to be registered with [Adaptive Programs](#) in the [Office of the Dean of Students](#) before appropriate accommodations can be provided.

Seating: Students may select a seat which becomes permanent for the semester and will be noted with a [photo of the student](#) on a seating chart. Permanent seating assignments are required to facilitate return of student folders with homework and for attendance checks. Materials will be returned in folders according to the seating assignments. Students are expected to be in the assigned seat at the start of a class session.

IRS Website: For example: www.irs.gov may be searched by publication number, form number, or topic.

Campus Emergency: In the event of a campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances. Information about ongoing on-campus emergencies will be posted at <http://www.purdue.edu>. Local news is available at <http://www.wlfi.com> & <http://www.jconline.com>. Cell phone emergency text messages will be sent to those signed up for them. You can register for this at <http://www.purdue.edu/securepurdue/>. For specific information regarding changes in this course, contact me by email at harrisog@purdue.edu, or call Gerry's Office at: 494-4216. Gerry's Cell phone: 427-1045. **Gerry typically works at his home office afternoons and evenings.**
