Travel Plans??? If you are doing any professional or personal international, please refer to the Purdue risk management website for current information that affects your travel and provides you with information on health and security while you are traveling. It includes a variety of travel recommendations, state department warnings, and general information on what to do in emergencies when you are travelling.

Recommend you bookmark this one! (This is similar to the travel website info and is actually the source of the latter, as such it may be more up to date.)

News from the Center for Food and Agricultural Business:

Executive Agri-Marketing Program Launches at Beck Agricultural Center

The center launched a new program, Executive Agri-Marketing, in mid-October. Twenty-three agribusiness managers came to Purdue's Beck Agricultural Center from across the United States and Canada to learn from Associate Professor Scott Downey and Justin Funk, managing partner at Agri Studies Inc. The program was designed to better equip marketing managers with the ability to powerfully direct their firms' marketing strategies in today's volatile agriculture environment.

Participants attended sessions on the discipline of segmentation, sharing what you stand for, communicating and delivering value propositions, and leading customer experiences across company boundaries, as well as an industry panel featuring Sarah Vacek of Monsanto, Kerry Need of Eli Lilly and Bill Preller of Bader Rutter and Associates. The program, which also featured a case study component, evolved from Strategic Agri-Marketing, one of the center's longest-running programs. Strategic Agri-Marketing was created by Dave Downey, the center's executive director, and Tom Funk, professor emeritus from the University of Guelph.

News from ICEE:

14th Annual Econ Camp a Success!

ICEE's annual Econ Camp took place on October 14-15 at Camp Tecumseh, near Brookston, IN. High school teachers of economics from across Indiana participated in the program. The program provided opportunities for teachers to explore economic content and best teaching practices. In addition they learned new ways to help their students relate economic concepts to current public policy issues. **Dr. Gerald Shively** presented a session on "Agriculture, Nutrition and Health: An Economic Perspective," and **Dr. Juan Sesmero** discussed "Climate Change and the Agriculture-Water Interface."
